history

Good design starts with art and art is reflection of the soul on the design. We are adding little nuances of art and beauty to designs, the nature of which is about purity. We are deriving inspiration from the past, and projecting it into the future. Directing strong emphasis of the modern approach into a brand new dimension, we add more value to the design.

While adding a new touch to the well-known and timeless lines, we are creating highly energetic spaces deriving inspiration from today for the future. We are combining simplicity and aesthetics in our bathroom sets in a way to evoke luxurious, smart and modern feelings.

This series takes its name from the word “Bella” which means beauty in Italy

The set is comprised of sinks and toilets in “C” shape. Non-geometric, soft contours of the set are the product of an elegant and minimal design approach. The set which has a fluid tank offers an excellent bathroom solution without trading off the practical use. The set rebels against an exaggerated beauty. The set is ideal for narrow spaces and has various size options.

bella

This series takes its name from the word “Bella” which means beauty in Italy

60×50 cm, 55×45, 50×40 cm and 45×35 cm sink options were added into the set. Back to wall sanitary ware, BTW sanitary ware, pedestal and half pedestal varieties were also added.

blue

“Thin profile on the top prevents water to go out and protects cabinet.”

IF Design Award | Hannover, GERMANY

Good Design Award | Istanbul, TURKEY

Washbasin's design is inspired by the color "blue". Calm, clear and elegant like water.

Blue washbasin reflects the elegance of this unique color to the bathrooms with the slimmest edges.

Sophisticated slim design creates a luxurious and calm atmosphere. Thanks to carefully thought-out details, the washbasin combines aesthetic with function. Thin profile on the top prevents water to go out and protects cabinet. Soft bowl design emphasizes the calming effect of the water on Blue washbasins.

Frame As the name suggests, this special set has an original design with its framed appearance

Since it has a very slim and elegant frame form, it provides a very smart look to the bathrooms. The geometric contours give an urban and modern feel to the set. Functionality and elegance are the prominent features in the design. The slim belt of the drip cap surrounding the upper surface prevents the water to overflow from the washbasin so that your furniture doesn't get wet and damaged. It also provides easy use.

The cupboard structure in which Frame is placed also provides different ways of use being compatible with Elite Set.

100 cm, 90 cm, 80 cm, 70 cm, 65cm, 60 cm, 50x38cm, 50x28cm(right) and 50x28cm(left) size options were lately added into the Frame Set.

plus

As the name suggests, the Plus Set gives a different and superior look to the bathrooms.

With the serenity it exudes, the pleasure of bathing turns into a ritual. The set has a fluid internal tank design. Besides being easy to use, it gives a much sought option for those who want to add a little distinct feeling to the space. The front edge which is shaped as a bow allows it to be accompanied with a bow shaped furniture.

The set was designed for those who would like to try non-classical washbasin alternatives, looking for an extraordinary form and use. The Plus Set is also one of the most convenient washbasin solutions for those who have a more select design understanding, favoring fluid forms.

olive

Would you like to bring the ancient traditions of the Mediterranean to your bathrooms in a modernized fashion?

Olive was designed exactly for this purpose, drawing inspiration from the civilization, prosperity and long life represented by the olive. Sink form of the set was inspired from the leaves of the olive tree.

The Olive Set gets this different form from a Mediterranean interpretation.

This product that you could easily complement with the other bathroom products is very decorative and helps you show off your subtle taste thanks to its oval form resembling an olive.
